

Pulse

Keep a Pulse on your availability—
every day, from anywhere.

Ready to own the shelf and win over shoppers?

Stay ahead with rapid inventory data

- Track product availability with fast, accurate store-level data.
- Reduce stock outages by monitoring shelves across the largest network of grocery retailers.

Identify competitive opportunities

- Oversee competitor stock changes to better position your brand in each region.
- Empower your sales teams to boost sales velocity across your retail partners.
- Confirm your brand's total product distribution, even for limited releases.

Drive smarter decisions & results

- Get new reports & UPC stock updates to your inbox daily.
- Leverage real-time insights to improve your shelf presence.
